

Dog Social Club Rules

We can only maintain this unique, fun experience if everyone takes care of each other by following these simple rules:

- All dogs must be registered prior to entry.
- All dogs must be at least four (4) months old.
- All humans must be 18 or older to enter with a dog and participate in social activities.
- An individual can only register dog(s) in which they have ownership and liability over. Foster dogs, dogs owned by family members, and dogs owned by friends, must be registered by their legal owners, and will not be permitted entry unless accompanied by a legal owner. Dog services, i.e. dog walkers, dog trainers, dog sitters, etc. are not allowed to bring the dog(s) unless accompanied by the legal owner.
- An individual can only enter the Social Area with up to two dogs at one time. Additional dogs require an additional person that is assuming liability for the additional dogs. No more than two humans per dog.
- Dogs who are sick, in heat, or have fleas or ticks are not permitted to enter.
- Spay/Neuter Policy -- All dogs 9 months and older are required to be spayed or neutered with proof uploaded to our membership portal prior to entry. Unfortunately, we are unable to make exceptions. We understand that the choice to spay or neuter and at what age is a decision to be made for each individual dog by the Owner in consultation with your veterinarian. As dogs reach sexual maturity, hormonal changes occur that can alter behavior or may cause tension amongst other dogs within the group dynamic. Dogs who are not fixed can receive too much unwanted attention and feel "picked on", which can result in a fight.

- Vaccine Requirements -- All dogs entering the Social Area must be up to date on vaccinations, including:
 - Rabies
 - Distemper/Parvo (DHPP/DHLPP/Da2PP)
 - Bordetella

You must upload a copy of your dog's vaccination record to our membership portal prior to entry and must provide updated records as old records expire throughout the term of your membership.

- Aggressive Behavior
 - Aggressive behavior will not be tolerated by either you or your dog(s). Aggressive dog behavior includes, but is not limited to, excessive barking as well as biting, mounting, humping, and bullying. If you or your dog demonstrates aggressive behavior, you may be asked to either relocate or leave the Premises by the Company. Offenses will be documented. Repeat violations will result in permanent ban from the facility to protect our employees and guests.
 - The Company reserves the right to reposition a dog within the Premises or escort the Owner and dog off the Premises if a dog is seen showing aggressive behavior. If conditions warrant, it is possible that the dog will not be allowed back to the Premises.
 - If dog fights occur, each Owner should grab their respective dog by the nape and pull them away from the other dog(s) involved and reposition them until they calm down. Please note, no method is perfect, and the risks are still present. The Company reserves the right to reposition a dog within the facility or escort the Owner and dog off the Premises if a dog fight occurs. If conditions warrant, it is possible that the dog(s) will not be allowed back to Premises.
 - Dogs inherently play "rough." However, rough play is not accepted if one or more of the dogs aren't comfortable with the situation. If a dog is deemed to "bully" another dog, the owner may be asked to place their dog in "time-out." The Company reserves the right to reposition a dog within the facility or escort the Owner and dog off the Premises. Mounting or humping behaviors are included in this and are not tolerated.

- Dogs must be on-leash until inside the holding area where they can then be turned free to enter the Social Area. While in the Social Area, all dogs must be off-leash which will allow them to move freely and at their natural pace.
- Dogs must not be left alone in the Social Area. If the Owner needs to leave the Social Area for any reason, the dog(s) must either go with them (on leash) or remain in the Social Area with a responsible adult that is monitoring them.
- When entering and exiting the Social Area, please open only one gate at a time, and be careful not to allow other dogs to enter or exit with you.
- Outside toys, dog food, treats, or water bowls are not permitted.
- Only harnesses and flat, buckle collars permitted; No prong, pinch, choke, chain, electric, martingale, or locked collars.
- Owners must retain possession of their leashes. Green Dog Barkery is not responsible for lost leashes; however, we will do what we can to help you find them.
- Please pick up after your dog. A clean-up station is available in the Social Area for your use.
- If a human guest is visibly intoxicated and unable to walk (with a dog) in a straight line, they will be sent home in a taxi or ride-sharing service such as Uber or Lyft.
- Green Dog Barkery is not responsible for any injury, illness, or damage caused on our Premises, and all human guests must be responsible for their dog(s). If your dog(s) causes any damage to a person, a dog, or property, you are responsible.
- Green Dog Barkery intends to make employees available to monitor and assist with the behavior of dogs. You agree that you will comply with all instructions of employees at all times. You also acknowledge that employees may not be available to monitor and assist with the behavior of your dog(s) at any given time. You are always responsible for the behavior of your dog(s) at all times, regardless of whether or not an employee is present.
- Green Dog Barkery management staff have the right to refuse service to any guest for any reason.
